

REDLINE PARLUX

**TRIPLE TAILGATE LIGHT BAR (2PC)
FOR 2005~2023 TACOMA 2ND & 3RD GEN**

INSTALLATION GUIDE

WHAT'S INCLUDED

1X Triple Redline LED Bar

1X Plastic Aligner (*Use this part for Option 1, Step 4-5)

1X EVA foam (*Use this part for Option 1, Step 4-5)

2X Heat Shrinkable
Wiring Connector

4X Mounting
Clips

1X Adhesive
Promoter

INSTALLATION

STEP 1

Before mounting the Redline Light Bar, perform a bench test by connecting the Redline LED Light Bar to the vehicle. Ensure all the lighting functions work.

*RECOMMENDATION: For a successful install, we encourage you to carefully remove the truck's tailgate from the vehicle to achieve the best results.

STEP 2

Once you have removed the tailgate, prep the area by taking a wash cloth to remove any dirt and debris from the area. Next, using the Adhesive Promoter apply in the area you will be mounting the light bar.

STEP 3

Position the Redline Light Bar according to your preference, with the center hatch as a reference point for measurement. For accurate sequential alignment of the light bar, ensure that the OPT7 logos on each end of the vehicle are oriented correctly.

STEP 4

Utilize the EVA and Plastic Aligner to achieve a parallel and horizontal alignment of the LED bars. The EVA will need to be temporary inserted into the middle gap hitch.

OPTION 1

INSTALLATION

STEP 5

- 1 Take the Plastic Aligner and connect to the LED bar to level the light bar for the left side of the vehicle.
- 2 Next, repeat this step for the right side of the vehicle.
- 3 Gently remove the adhesive backing from each LED light bar.
- 4 Ensure both LED light bars are mounted at the same level.

STEP 4

For optimal installation of the Redline LED Bar, carefully plan and mark the debris bracket mounting locations, taking placement into consideration to ensure a straight application.

OPTION 2

STEP 5

Securely mount the Redline LED Bar to your vehicle using the provided screws and clips to ensure a solid installation.

INSTALLATION

STEP 6 (OPTION 1)

OPTION 1: You may plug the 4-pin flat connector into the proper receptacle on the vehicle.

OPTION 2: For a neater installation while retaining the ability to use your trailer plug, consider utilizing the OPT7 Redline DUAL 7-PIN SPLITTER TO 4-PIN ADAPTER HARNESS with REVERSE WIRE Extension Adapter Harness available on our website.

STEP 7 (OPTION 2)

Splice the white wire from the Redline Light Bar into the reverse factory tail lights using the provided shrinkable wiring connector manual to identify the appropriate color to tap into for the OEM reverse wire.

INSTALLATION

Dual 7-Pin Splitter to 4-Pin ADAPTER HARNESS with REVERSE WIRE

Please note that this item is not included and needs to be purchased separately.

STEP6 (OPTION 1)

Attach the OEM 7-Pin plug to the OPT7 7-Pin to 4-Pin Adapter Harness. Make sure the pins align and securely clip into place.

STEP7 (OPTION 2)

Splice the white reverse wire from the Redline LED Bar to the white wire on the harness, securing the connection with the provided heat-shrinkable connector.

STEP8

Re-test the functionality of the Redline Parlux Tacoma LED Light Bar. Ensure all the functions are working.

OPTIONAL

Dual 7-Pin Splitter to 4-Pin ADAPTER HARNESS with REVERSE WIRE

HARD WIRING

If hard-wiring, use image below to identify wire color functions and pair them to appropriately identified wires on vehicle.

TO REDLINE LED BAR

Ground
Running Light
Left Turn & Brake
Right Turn & Brake

TRAILER HARDWIRE HARNESS

White/Ground
Brown/Running Light
Yellow/Left Turn & Brake
Green/Right Turn & Brake
