OPT7[®]

F150 09-14

LED 3RD

BRAKE

LIGHT

INSTALLATION MANUAL

INSTALLATION

1

Remove the brake light.
In a typical case, remove 2 fasteners and pull rearward on the brake light housing to release it from the body of the vehicle.

2

1. Remove bulb socket from original 3rd brake light housing.
2. Remove original halogen bulb from bulb socket

3

1. Insert Red/Black wire connector from OPT7 light housing into one of the original "Brake light" bulb socket. Leave the other "Brake light" bulb socket empty.
2. Insert Blue/White wire connector from OPT7 light housing into original "Reverse light" bulb socket.

4

Seat the new brake light housing into it's appropriate slot.

5

Install the 2 fasteners that were removed from the original brake light housing.

6

Test your new brake light for function!
