If you are unfamiliar with your vehicle or inexperienced with aftermarket upgrades, please seek professional assistance.

# **2 YEAR WARRANTY**

# **INSTALLATION STEPS**

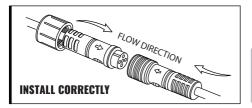

TOOLS REOUIRED

- 5/32-inch Drill Bit
- · Phillips Head Screwdriver
- 1 Designate your mounting locations for each Rock Light Pod and the control box. (Refer to page 2 for recommended mounting locations)

Avoid hot surfaces and/or moving parts.

- 2 Use a pen to mark the holes where you want to mount the Rock Light Pods. Then, drill a 5/32" hole(s) for the wire connector to pass through.
- 3 Drill a 7/64" hole for each marked hole.
- 4 Secure the Rock Light Pods using the included screws. (If mounting on a rounded or uneven surface, utilize the optional rubber mounting pads.)

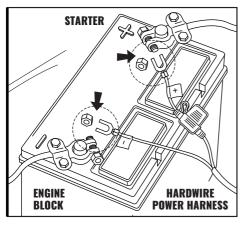

Caution: Rock Light Pods become extremely hot during use - keep away from any vehicle parts that may be damaged by exposure to high temperatures.

5 Connect all Rock Light Pod lines to the control box connectors. Secure by twisting.

#### NOTE: CONTROL BOX NOT WATERPROOF

Ensure the control box is safely and securely hidden from exposing elements of moisture.

# HOW TO CONNECT POWER HARNESS TO YOUR VEHICLE

- Connect the Red line(+) of power hareness to the vehicle battery's positive terminal.
- Connect the Black line (-) of power hareness to the vehicle battery's negative terminal or an unpainted area on your vehicle's frame.

- Connecting to more than 10 AMP will override the kit and cause early failure, ensure it is 10AMPs or less!!
- 2. Please ensure that the LED bars or strips/control box/wiring all are mounted in areas where will not exceed 85°C or 185°F.

If you are uncomfortable performing work of this nature yourself, then do not hesitate to consult a professional for help. Working with a vehicle's electrical system can be hazardous to an unqualified individual. OPT7 is not liable for damages or personal injuries while installing this product. The installation guide is provided as assistance to reduce set up time.
